ABOUT US

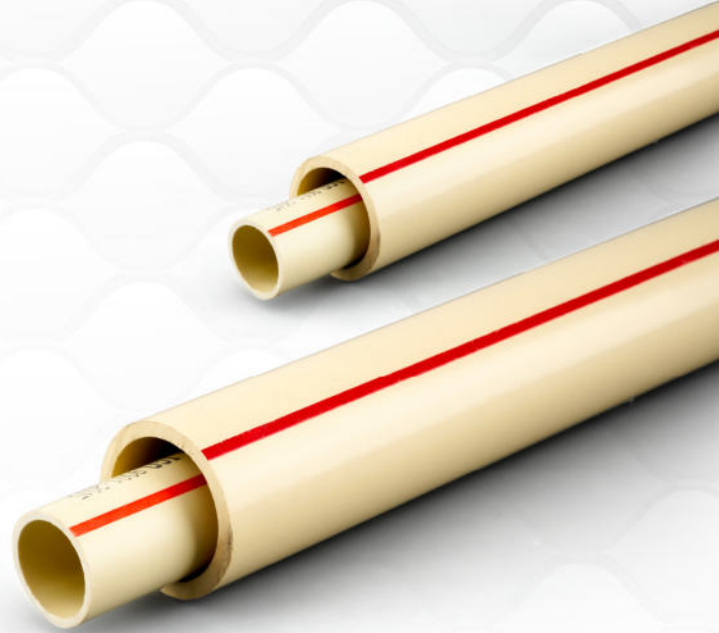

DHYEY PLASTIC stands as a trusted name and acknowledged leader in India's plastic piping industry. With over 8 years of rich experience, the company has consistently delivered innovative, reliable, and cost-effective solutions in plastic pipes and fittings, earning the confidence of customers across sectors.

From pioneering breakthrough products to redefining quality standards, **Dhyey Plastic** has played a key role in the industry's transition from conventional systems to advanced cPVC / uPVC pipe and fitting technologies. Our commitment is to provide high-performance piping solutions that meet the evolving needs of water management, infrastructure, and construction industries.

Our flagship brand, **Sky Flow**, offers an extensive and thoughtfully engineered product portfolio including lead-free, high-pressure cPVC / uPVC solvent weld plumbing systems. These systems provide a superior, hygienic, and economical alternative to traditional GI piping, delivering long-lasting performance with minimal maintenance.

Designed for a wide range of applications from terrace looping and concealed piping to up-take and down-take plumbing lines. **Sky Flow** products ensure easy installation, enhanced durability, and cost efficiency. In fact, our systems often cost nearly half as much as conventional alternatives, while offering twice the life span.

At **Dhyey Plastic**, we are not just manufacturing pipes we are engineering smarter, safer, and sustainable water flow solutions for a better tomorrow.
